IMPORTANT:

Youi (Pty) Limited is an authorised financial services provider (FSP 22785). Underwritten by OUTsurace Insurance Company Limited and OUTsurace Life Insurance Company Limited (FSP 896).

This document does not replace your schedule or policy wording. Please make sure you read those documents to understand the cover you selected.

Call us on 086 000 9684 (YOUI) should you wish to update your cover. Our friendly advisors are waiting to assist.

7-Step Guide

to your Youi cover

We put this 7-step guide together with helpful info about important aspects that affect your cover and your claim. You can help make your claims experience a breeze by taking note of each of these points.

Remember that you can call us on 086 000 9684 (YOUI) for any queries relating to your cover or if you need to claim. You are also welcome to contact us via our website – www.youi.co.za and we will call you back during normal business hours.

1 Read your policy wording and schedule

We never read the important documents because they're boring and full of 'legalese'. That's why we've made your documents simple and straightforward by using plain language. Your schedule has the details of your specific cover and, together with your policy document, highlights the terms and conditions of your cover.

Check the following:

- The details of what is covered and what is not covered
- Any special conditions
- Your premium details and the excess you'll need to pay if you claim
- The optional cover (such as car hire, Youi.Safari, extended cover for geysers, etc.). Your schedule will indicate what optional cover you selected and what the premium is. If the word "OPTIONAL" appears on your schedule then you have not selected that extra cover.

2 Make use of Youi.Assist

Our service operates 24/7 for vehicle and home emergencies. If your car is covered with us, we'll assist with any roadside emergencies. If your home is covered with us, we'll assist with home emergencies. Please check your Youi.Assist brochure for full details and in order for you to get professional service. We'll ensure that our approved supplier assists you.

3 Security devices

If any security device (such as a home alarm system or vehicle tracking device) is a condition of cover (i.e if you don't have this requirement, you are not covered), please make sure the device is in working order and that you make use of it. In certain instances we have the option of charging you an extra premium if you do not have the necessary security device in place.

4 Regular driver

The regular driver of the car is the person who drives it most often. There can only ever be one regular driver and any other drivers are therefore not the regular driver. They are allowed to drive the car and do not have to be noted as drivers. There may be a difference between the regular driver and the registered owner; we only want to know who the regular driver is. Some people list the wrong regular driver to save on their premium (e.g. the son is the actual regular driver but the father is listed as the regular driver). This may mean that a claim will not be settled if the son drives the car and is involved in an accident.

5 Driving after drinking alcohol

If you will be drinking alcohol and need to get back on the road, we urge you to be responsible. Have a friend who has not had alcohol drive you home safely.

6 Car insurance facts

- Non-factory fitted sound equipment and vehicle accessories must be specified in order to be covered. They'll then be noted on your schedule.
- We've seen a steep increase in theft of personal items from cars parked in public places like shopping centres. If you leave your personal items in your car, store them in the boot or storage area out of view of the prying eyes of thieves. Your All Risk cover states that items must be concealed and that the car must be broken into (there must be visible signs of forced entry); so remember to lock your car as well.
- Be aware of thieves who use normal gate or garage remote controls to block the signal of your car remote control when locking your car. This is possible since many car remotes operate on the same frequency as the other remotes. You might think that your car is locked after pressing your remote button, but in reality, the signal may have been blocked by a criminal, leaving the car and its contents vulnerable to theft. The best thing for you to do is to always physically check that your car is actually locked after pressing the remote button.

7 Home and contents insurance facts

- Cover your items for the correct value to prevent you from being underinsured. The correct value is today's replacement cost which may differ from what you originally paid for the items. This is applicable to your Contents, Buildings and All Risk cover.
- Any jewellery is only covered (under Contents cover) if you tell us the total value of your jewellery, which will then be noted on your schedule.
- Your personal possessions (including jewellery) that you take out of the house must be covered under All Risk cover.
- Make sure that your property is well maintained. Damage caused by a lack of maintenance or due to wear-and-tear is not covered.
- If your geyser bursts, close off the water supply to reduce the risk of further damage to your property.
- Defective workmanship is not covered and can cost you more than you thought. Use reputable companies to carry out work at your house (e.g. building, maintenance or repairs). Use a builder approved by the NHBRC (National Home Builders Regulation Council). In the event of defective workmanship on your property you'll then be able to claim from the builder through the NHBRC.
